LITTLE CLIPPINGS.

While Tanner's last was in progress the editor of the Boulder, Col., *News and Courier*, drew courage from it and announced: "If Tanner survives, we shall stick to journalism forty days longer."

"I'll never eat another peach
And swallow down the seed,
Which maketh me with anguish screech,"
Said little Robert Reed;
"For disappointment it is its stings,
As all of us do know;
But rather'n wear a pair of wings
'Tis better to go slow."

At Deadwood, Dakota, in the case of United States Detectives Llewellyn and May, who demanded trial upon a charge of murder for killing Lee Grimes, alias Curley, while attempting to escape from them last fall, the jury yesterday rendered a verdict of not guilty. Grimes was one of the most dangerous criminals ever in that section.

A remarkable fish was last week caught on Santa Catalina island. According to the Los Angeles *Herald*, it was thirty inches long, the body of a bright, silver color, the tail and head blood red. On the head grew a crest of a bright red color. At the tail there was also a protuberance, which resembled the curved feathers in a cock's tail.

A Paris merchant, who has been several times robbed by unfaithful cashiers, has invented an infallible test of competency. The cashier presents himself, offers his services, shows his reference. Then the merchant: "Show me how you would erase a mistake in your figures." The aspiring cashier sets to work with scraper, ink eraser, and what not, and if he succeeds in destroying all trace of the erasure he is invited to take his hat and leave.

St. Julien's Time.

From the Stock Exchange.

"Pass that St. Julien," said Captain Menzies at the table of the J. C. Cousins last Saturday. The claret bottle was sent slowly along the starboard side to the impatient skipper. "Is this the time that St. Julien usually makes?" said Menzies; and at that moment the yacht shipped a sea, which saved the skipper from the indignation of his outraged crew.

He Was In, But Not Receiving.

A stranger calling at the house of a gentleman the other day met a German friend at the gate and inquired of the latter: "Is Mr. —— in?" "Yes," was the reply. When about to pull the bell the Teuton called him back and said: "He is in, but he is det."

Putting it a Little Strong.

From the Philadelphia Times.

It is accepted on both sides that the party that can spend its money to the best advantage and cheat the most all round the board will be victorious.

A Sage Opinion.

From the Stock Report.

We hardly think ourselves that Mr. Carlisle is exactly cut out for a political editor. He lacks caution.

Stop That Cough

With a sample bottle of Kaiser's German Elixir. This is the most wonderful cough remedy ever introduced, being mild, yet positive in its action and soothing under all circumstances. Old and young may use it with perfect security. It is rich in the medicinal properties of tar, wild cherry and horehound. Ask your druggists, Messrs. Osburn & Shoemaker, about its merits. They sell large quantities of it and say it supercedes all others. The genuine bears the Prussian coat of arms and the facsimile signature of Dr. Kaiser on the wrapper and has his name blown in every 75 cent bottle. Samples 25 cent. Large size 75 cents. feb3-d&w

OF NEW YORK.

CAMPAIGN PAPERS.

For one dollar we will send the Daily GAZETTE until November 5th, and the Weekly for fifty cents.

FOUR GREAT TROTTERS.

Rarus, St. Julien, Maud S. and Edwin Forrest are of about equal speed. St. Julien and Maud S. each recently made, in the same race, the best time on record—2:11¾. Robert Bonner, of the New York *Ledger*, owns Rarus and Edwin Forrest, and does not allow any public exhibition of their speed. On his private three-quarter mile track, Rarus was last fall driven a mile in 2:11¾. Edwin Forrest has made a mile on the same track in 2:11¾. Of course these private performances are not a matter of record. What a treat to the lovers of horse-flesh it would be to see these four great flyers contest a race. Bonner has been repeatedly urged to allow his horses to trot in public, but has persistently refused. He may give way some day, and a trotting match be arranged such as has never been seen on the turf. Maud S. is not likely to race again this year. Vanderbilt, her owner, has telegraphed from Europe that he does not want the mare started again this season. He is fully satisfied with what she has already done, as, indeed, he well may be.

HONORS TO HAYES.

The Virginia *Chronicle* is unwilling that any public honors should be paid to President Hayes, should he visit the Comstock next month. The reason given is that Hayes is President by fraud and not by right. Thus do the Democratic journals seek to keep alive the old fraud issue. The Democrats, however, threw away that issue when at Cincinnati they threw overboard Tilden and nominated Hancock. On the eve of that Convention, the New York *Sun*, the great Democratic newspaper, declared that Tilden must be nominated or the fraud issue abandoned. Unless Tilden were nominated the Democrats would go into the campaign with no issue and the certainty of defeat.

There is no public man in the United States to-day whom the people of Nevada should more delight to honor than President Hayes. Never in the whole history of the United States, has there been a purer Administration than his. The name of Rutherford B. Hayes will find honorable mention in the pages of history long after Samuel J. Tilden shall have ceased to be mentioned as a noted political trickster who headed up his "barrel" in 1880.

WHICH SHALL IT BE?

It is the universal sentiment among Republicans that the coming County Convention assemble and act as a deliberative body, and not as a trader's market place for buying and selling. It is hoped that the primaries may be conducted openly and fairly, so that every man may have an equal show. It is recommended that no candidates be sent as delegates, and that no delegates go pledged or give proxies. All these requisites may sound Quixotic to old stagers, but it must be remembered that if we elect our ticket this fall every step must be above suspicion in order that the ticket finally put before the people may command confidence. Any one of half a dozen ways of selecting delegates to be voted for that are suggested seem to be fair, and will doubtless give satisfaction. Republicans should attend the meeting to-night. If they do not do so they need blame only themselves if they exert no influence in the choice of delegates.

On High Democratic Authority.

From the New York Sun.

Facts show that New York is a close and doubtful State.

DECAPITATION IN GEORGIA.

Georgia lynchers have a summary way of proceeding. At Sunnyside in that State, recently, a mob took a prisoner away from the Sheriff and cut the prisoner's head off. Their victim had run off with his wife's sister, a girl of 12. Cutting off a man's head is about as sure a way of causing death as any known to science.

This reminds us of a famous Indian moose-hunter who always cut off the heads of the moose he shot, as soon as he could get to his game. When asked the reason of this practice, he explained that when a young man he had lost many moose that were shot and appeared dead, but would suddenly jump up and run away. The Indians have a superstition that the devil assists the moose in such cases. "Now," said the mighty hunter, "me always cut-em head off. Me take head, devil take carcass."

EDITORIAL NOTES.

Since Boynton Carlisle offered to sell Sharon the influence(?) of the Genoa *Courier* for $200, the Genoa *Journal* has come out with a bold declaration of its own lack of principle. The *Journal* thinks it quite right for a newspaper to "sell out." It says: "A newspaper works for money, and its advertising columns are its main source of support. Now, if it can sell its other columns, is it any worse?" The moral atmosphere of the Carson valley newspaper offices is evidently pretty bad.

A newspaper of Paris, France, according to a special to the New York *Herald*, came out last evening with an article accusing Dr. Tanner of fraud. It says that the supposed water drank by him during his forty days' "fast" was really liquid matematis, a nutritious South American beverage. The information professedly comes from the divorced Mrs. Tanner.

The murder of Josiah Bacon caused considerable excitement at the time of its commission in the Baldwin hotel, Apr. 13, 1879. He was the traveling agent of the Goodyear Rubber Co., and was shot by Samuel P. Chalfant, a dentist. The case came up for trial in San Francisco on Wednesday. The defense alleges that the shooting was accidental.

It is proposed this year to have the record of every nominee for Presidential Elector investigated by a National Republican bureau, in order to prevent the election of legally disqualified persons. It is also proposed to have a trustworthy agent in each precinct, to see that no blunders are made in the clerical form of the returns.

The Sierra Valley man who wrote this to the San Juan, (Cal.) *Times* is not deficient in imagination: "A Sierra Valley rancher says that in one day he took out of his spring, which is about ten feet square, 350 pounds of dead hoppers, and they fall in such vast numbers into the creek that the stock refuse to drink the water."

The Democrats are trying hard to have the time of the Indiana State election changed from October to November. This indicates their defeat in the State election and dread of its effects upon the States which hold their elections later.

News has just been received of a hurricane at Kingston, Jamaica, last week, which demolished houses, churches and wharves. Thousands of people were left homeless, and forty vessels were wrecked in the harbor.

The Ericsson Caloric Motor engine is attracting considerable attention. The motive power is hot air, heated by gas jets. The engine develops enormous power for the fuel consumed, and is very economical.

"It was announced that Frank Pixley had buried the hatchet." Yes—in the skull of Fox of Alameda.

A Bitter Cup.

LOS ANGELES, August 26.—On August 28th Mrs. Leban Weekly, of Tustin City, committed suicide by putting strychnine into her coffee. She also put some in her husband's cup, but he took little before discovering the poison, and will probably recover.

Gold in Dentistry.

Dr. Farrar, of Brooklyn, says that a ton of gold, worth half a million of dollars, is annually packed into people's teeth in the United States, and that at this rate all the gold in circulation will be buried in the earth in three hundred years.

The most popular and fragrant Perfume of the day "HACKMETACK." Try it. For sale by Osburn & Shoemaker, Druggists, Reno, Nevada. aug27tf

PACIFIC COAST NEWS.

Tuscopora is to have a Jockey Club and races this fall.

Judge W. B. Norman, of Calaveras, is ill at Stockton and expected to die.

There are at present fully 150 Sacramentans sojourning at Santa Cruz, the great majority of them being women and children.

Arbedilow Tarlease has been held to answer without bail on the charge of murdering W. H. Harrison, at Eureka.

The wheat fields of Big valley, Modoc, will not yield more than half a crop this season. The barley and oat crop will be up to the average.

One of the curiosities of the Sacramento county jail is the confinement therein of four cripples who have between them but two legs. Two of them have no legs and the other two have one leg each.

The Modoc *Independent* states that a steamboat sixty feet in length is to be placed on Goose Lake shortly, and will be used by excursionists and for the transportation of freight—when the railroad is built.

Joseph Young, of Silver City, who has just returned from a long visit to the Skagit mines, gives a very discouraging account of that country, and says there is nothing in the mines worth taking out.

A Gold Hill lady, who has been an invalid for some time, was the owner of three canary birds. Last week she expressed a desire to have them killed and cooked for her, and her attendants deceived her by substituting three other small birds. The invalid lady was satisfied, but the next day discovered that she had been deceived, and insisted on having the birds killed and dressed in her presence.

The other day, in North San Juan, the owner of a chicken-stealing cat gave 25 cents to a boy to drown it. The cat was put in a sack, and the mouth of the sack tied strongly with a cord. The boy took the bag to a ditch, put it under a waterfall, made by the water pouring from a sluice box, and left it to its fate. The next morning the gentleman found the cat in its accustomed place by the stove.

Reports from San Diego are to the effect that a corps of engineers will arrive in that city on September 5th to locate one branch of the Atchison, Topeka and Santa Fe railroad, from San Diego to the Needles on the Colorado, via the Cajon Pass. It is stated that the Railroad Company agreed that if $30,000 was raised by San Diego, to be given to the company after $250,000 had been spent in building the road, work would be commenced immediately.

The Odd Fellows' Census.

The report of the Grand Secretary of the Grand Lodge of I. O. of O. F. shows a membership at the end of the year of 37,891, being a decrease during the year of 269. The total paid by lodges for relief during the year was $158,787. The Grand Treasurer's report showed receipts of $671,709 and expenditures of $667,416. Balance on hand at the end of the year, $139,280.

The Chinese army is variously estimated, some placing it as low as 30,000 men, already in the field. Some critics, who profess to speak from personal knowledge, praise highly the efficiency of the celestial battalions, which, with very few exceptions, have for field officers military experts who learnt the trade of war in the armies of England or France, the system of organization and tactics being that existing in the armies of the republic.

An English curate happened recently to preach on the stages of sin and to make some uncomplimentary references to the Prodigal Son. A young scapegrace in the congregation fancied that the sermon was aimed at himself. He horsewhipped the curate the next day.

To The Masonic Fraternity.

The Northwestern Masonic Aid Association of Chicago is the largest and most prosperous in the U. S. It now numbers nearly 8,000 members—Gives $5,500 coin to the heirs of deceased Masons—has paid out about $150,000 in six years, to widows and orphans and the annual cost of membership is but about one-fourth the expense of an ordinary insurance policy. There is no more certain, reliable or economical way of establishing an immediate estate or providing for the future than is offered by the above institution. For further information and circulars apply or send to my office on the east side of Virginia street, south of the railroad, Reno, Nev. JOS. DEBELL, Agent for Reno and vicinity. je9

As a Commission Agent,

I buy or sell for you on commission—in the general market of Sacramento—any kind of Merchandise or Real Estate.

Say thus—whatever you cannot buy or sell yourself, at your home market, or that which you do not wish to get or dispose of in person, either here or where you live, I will manage for you here. Any order which you entrust to my care will be strictly considered business, and carefully guarded as such. No matter how large or small, or what nature your business may be, if the thing can be sold, or the business be done at all, I will manage the order to your satisfaction, and at very moderate charges. All inquiries for prices and pleasure orders must be accompanied with stamps to receive attention; and all large transactions are considered cash, unless previously otherwise stipulated. Prepaid samples of seed, grains, wool, and so on, received and placed on market. As a specialty I select Agricultural Machinery and Implements. Mechanics' Tools and Hardware, in all its branches. I have followed this business, as salesman, solicitor and collector, three years with Hawley & Co., and over twelve years with Baker, Hamilton. Houses rented and rents collected. CARL STROBEL,

Armed to the Teeth

Is a very common expression, but we think that armed to embellish and preserve them to a ripe old age is decidedly more appropriate. This can be done by keeping yourself supplied with a bottle of that splendid dentifrice, Fragrant SOZODONT, which will beautify the teeth and preserve them from the ravages of decay. SOZODONT contains no acids or gritty substances which injure the enamel but is composed of rare and antiseptic herbs, which have a beneficial effect on the whole economy of the mouth. 8-1-1m D&W

MARRIED.

KIMBALL—LEROY—In Reno, Aug. 21, 1880, at the residence of and by the Rev. G. F. G. Morgan, John A. Kimball of Reno (formerly of Indianapolis) and Allie LeRoy of Sacramento, Cal

JOTTINGS.

—Ophir is assessed $1, and Kentuck 30 cents.

—There is nothing new in the Justice's court to-day.

—The next term of Mt. St. Mary's Academy opens on Monday.

—The iron rails between Reno and Verdi are being replaced by steel.

—Mr. Rice has an announcement in the 50 cent advertisement column.

—The Trustees of the Agricultural Society met last evening and changed one race into a two-year-old race.

—"Buckskin Bob," tried by a jury of his peers last evening, was acquitted of the charge of petty larceny.

—C. Reed raised an enormous squash this season. It weighs fifty pounds, and can be seen at the Arcade restaurant.

—The 2-stamp mill is hammering away on Con Esmeralda ore. The pulp goes through a Hendy concentrator, and the result is highly satisfactory.

—C. S. Martin has an advertisement for the sale of 100 acres of land with water etc. Mr. Martin does well to advertise, as he is sure to reach those who want to buy.

—Governor Sprague, who was after Senator Conkling with a shotgun early in the season, has made it up with his wife, and she is to return to his roof at Narragansett Pier.

—A rancher thought his son must have fallen into extravagant habits in town, because he looked so stylish, but, when the boy explained how cheaply he bought his clothes at the White House, the old man was satisfied, and said he would go there himself.

—W. B. Hardy, of San Jose, has made a tour in his own wagon, taking in Mt. Shasta and the country north. He intends going home via Tahoe. His team was standing at McFarlin's shop to-day and took a run on their own account to the race track. The only thing broken was some spokes in one wheel.

DISTINGUISHED VISITORS.

An Aristocratic Family on Their Travels.

The Count and Countess of Telfener and Col. Hungerford came in from the East last night. They were met here by John W. Mackay, and the whole party went to Virginia this morning. Col. Hungerford is father-in-law to both Mr. Mackay and Count Telfener. The Countess is accompanied by her maid, and the Count by his Secretary, M. Desbernine. Mrs. Mackay and her mother remain in Paris, where the three little Mackays are at school. A GAZETTE reporter had a pleasant interview with Col. Hungerford, who is an old-timer on this coast, having come to California in 1849, and to Nevada in 1860. He lived in Downieville and other parts of Sierra county for many years. He came to Washoe county in charge of a command of infantry at the time of the Indian war, and fought a battle at Pyramid Lake. The little army disbanded, but 14 of the members returned to the lake to prospect. They went

ALL OVER THE RANGE

between the Warm Springs valley and the lake, and sunk some holes where Pyramid City now stands. They built two cottonwood canoes and went to the island, where he wrote a history of the expedition, giving names and dates, which he put in a bottle and buried in the rocks at the highest point on the island. A pole was put up and a flag, made from red, white and blue shirts, was left flying. The party prospected for five weeks. Among them were Captain E. J. Smith, Horace Beach, Sam Young, —— Crow and others. The Col. bears his sixty years lightly, and is as approachable as in the days when he wore a woolen shirt and cowhide boots. His life has been very eventful. He is a New Yorker by birth, and of an old English family. He married an accomplished lady from New York city, and they have lived to see their two girls marry about the richest men in the world, and become the every-day companions of Kings and Queens. Since his last visit to America he has been made a member of the "Fra Gli Arcidi," a very high honor in the literary world. Count Telfener is a man of great energy and enterprise. He is an engineer by profession, and has built some very important railroads in Europe and South America. He has tried many experiments to elevate the poor of his country. At the Paris Exposition he bought an immense lot of

AMERICAN SEWING MACHINES

and established a school in Rome to teach the poor Italian girls how to use them. To such as would apply themselves he gave a machine, so they could support themselves. The experiment was a failure, as the girls insisted upon being paid wages all the time they were at the school. He has now leased the ruins of the Colosseum and is putting them in shape to be preserved. The place will open on Nov. 1st with a grand carnival. After that it will be divided up and rented for Bazaars. The programme is for the party to spend a few days in Nevada, then visit California. Col. Hungerford and the Count expect to go to Mexico to visit the mines, etc.

Alleged Hidden Treasure in Bull's Cave.

There is some excitement about the cave on Bull's ranch, referred to in the GAZETTE yesterday. Six men called at the Farmers' store before breakfast this morning to interview Frank Backus concerning it. There is a report about that a band of car robbers hid $20,000 in the cave many years ago. It is also rumored that two men from Nevada county, California, have been prowling about Bull's ranch for a week, no doubt hunting for the treasure. The GAZETTE expedition has been admonished to start out at once, but they don't care for the bullion so long as the strangers leave the cave. That the Nevada county men may enter the cave and pull it in after them, coming out at the other end, is the only thing to be feared. That proceeding would result in the total destruction of the identity of the cave.

A Sudden Shock to Mr. Lake.

Last evening M. C. Lake received a severe fright. He, in some unexplained manner, turned up in the Arcade saloon, where several candidates had already been "setting up the drinks." It was immediately whispered about by some wag that "Lake's goin' to run for Senator." The "boys" at once crowded around him, somebody got the new aspirant for political honors by the shoulders, and he was pushed up to the bar. It really looked for a time as though the old man would be forced to "set 'em up." But by his firmness and presence of mind that danger was happily averted.

Two Roads.

A card has been distributed around Susanville, headed "Two Roads," and conveying the information that the broad road leads to death, misery and hell, while the narrow road leads to life, happiness and heaven. The last leads to Reno; the other to Big Meadows.

LOYALTON LETTER.

The Crops and the Grasshoppers—Gambling and Fighting on the Lord's Day—A Reno Man in Town—The Circus and a Hop.

LOYALTON, Cal., Aug. 25, 1880.

Editor Gazette: The harvest here is good and the yield is estimated at from 18,000 to 20,000 bushels. The gods appear to have been pleased with the untiring efforts of the ranchers this year, as no frost or grasshoppers have injured the crops, and they are now quite safe from either. This is the fourth year the ranchers have sown grain, and they had three years of failure.

The grasshoppers are laying their eggs, and apparently they have located permanently in this valley, much to the disgust of the ranchers. Other years they were on the move as soon as they could fly, but they are pleased this year with the climate, and locality, and seem to have changed their migratory habits for good staying ones.

Loyalton is a gay and festive place on the sabbath, as there were four gambling games and a wheel of fortune running last sabbath, and four fights, which resulted in one or more beautiful mansards over the optical organs of the pugilists. They had some fighting at Sierraville and Randolph, with fire arms, the same day. There appeared to be war in the atmosphere, or the whiskey, last Sunday.

The hay is being baled and hauled to the Truckee market. Butter is on the rise. Beer and whiskey are plenty, and all are apparently happy, at least once a week.

Nelson Hammond of Reno was in Loyalton yesterday, and the only thing of note in connection with his visit, was the unusually quiet and respectful manner in which the people of the town treated him. It is unusual for any stranger (even a reverend gentleman) to command the entire respect of this community, as did Mr. Hammond. Whether it was the high regard the people had for his extreme piety, his adipose, his muscle, his pugilistic qualities, his social or financial influence, or whether they had an idea that he came to investigate the disturbances of the peace of last sabbath, I know not.

A goodly number went to the circus at Truckee to-day, and expect to return to a private hop to be given at the Globe hotel in Sierraville to-morrow evening. P. M. D.

A Little Too Smart.

J. W. Stoddard left Sacramento for the East last Monday, owing the proprietor of the Crescent City Hotel a board bill of $40. When he reached Reno he wrote the hotel man an impudent and insulting letter, telling him where he could put the bill. The incensed hotel man at once telegraphed to Humboldt Wells, Nevada, to have Stoddard arrested. Stoddard was accordingly taken from the train at that station last Wednesday by an officer. After paying the hotel bill and costs he was allowed to resume his journey East.

Danger to Pedestrians.

The work now going on at the V. & T. bridge has made it needful to remove some of the planks from the flooring. People frequently walk over this bridge at night. The public are warned that it is dangerous to do so while the repairs are in progress. The bridge was built strictly for railroad purposes, and the public have no right to cross on it. Therefore the company would not be liable for any accident to a pedestrian thereon.

A Villainous Elopement.

REDDING, Aug. 26.—A. Dobson, living in the western part of this county, and having a wife and three children, eloped with a girl of 16. They came to Redding and occupied the same room at the hotel last night. They were pursued by the girl's father. Dobson was arrested and is now in jail.

Freight Car Burned.

A freight car was burned at Beowawe last Monday afternoon. It was used by E. W. Hedges as a sleeping place for his gang of carpenters, who are engaged in building a water tank. They left it about 12 o'clock, and at 1 the fire broke out. The men lost all their bedding and clothing.

The Rails for the New Road.

The steel rails for the Carson and Colorado road are coming from Europe. They will arrive at Mound House in about a fortnight, when the work of track-laying will begin. D. J. Sullivan, the celebrated track-laying boss, who laid ten miles of track in one day on the C. P. road, is to oversee the job.

Hot Air in the Tunnel.

The Sutro *Independent* says that owing to the extreme hot and foul air in the header of the south lateral branch of the Sutro tunnel, all work there has for the present suspended, and it is hard to say just when and how air will be procured to allow the resumption of work.

EX-SENATOR MITCHELL.

His Views of the Campaign, the Railroad, Etc.

Ex-Senator John H. Mitchell was a passenger on No. 2 yesterday. He has been to New York on business connected with the Oregon Steam Navigation Company, of which he is attorney. During a six weeks' stay at the metropolis he met representative men from all parts of the Union, and is entirely convinced that Garfield will be elected. He attended the great Republican conference, and says much good was done. He thinks New York and Indiana will go Republican. He says it will be a hard fight in Oregon, but the Republicans propose to make that fight and win. He goes up overland, and as soon as he reaches the Oregon line will go to making speeches. He has the highest opinion of Garfield. He says there never yet has been a President that went into the office so well qualified for it as he will. His twenty years in public life have given him a knowledge and training in government and administration affairs such as no man has ever had. The Senator met Henry C. Worthington, Nevada's former representative, frequently, and knows him well. He says he is the only man of Republican instincts that can be found opposing the ticket, and he does it because he thinks Hayes and Sherman have not treated him and his friends exactly right. Worthington is a good fellow, but he has overworked himself as a politician and thinks he is not appreciated as he should be. The Senator speaks very highly of ex-Governor Woods, who he says, would have been Senator if he had staid in Oregon. He says that if Reno has secured his friend ship she has made a valuable acquisition, for he is a pure and good man, as well as an able one. He thinks well of the railroad project and says it will be popular in Oregon. They want all the railroads they can get there. The ex-Senator is a very young-looking man and is deservedly popular in his State. He is very approachable, and is an intelligent and interesting talker.

RUNNING FOR OFFICE.

How the "Boys" "Ring in for Drinks" on the Candidates.

The appearance in any of the principal saloons of a candidate for a county office is, any time in the evening, the signal for a general rush to the bar. The daring candidate may peep in at the door and see only one man present besides the barkeeper. He goes in to treat the man, when, lo, the saloon instantly becomes full of men. They drop in at the front door, they enter from the side, they come forward from the rear, up out of the cellar, and swarm down the stairs. They all slap the candidate on the back in turn, and inquire how he's doing. Then the shout goes up: "Who's a-treatin?" A desperate smile flits over the candidate's face—like a gleam of sunshine on a wintry landscape—and he says: "Boys, what'er ye goin' to have?" Then the "boys" fall into line before the bar—two or three dozen of them, and when all the glasses are charged, there's a half-drowned murmur of "cars to ye," and the candidate rushes wildly out into the night, inwardly cursing those —— d——d sons of —— to ——.

PERSONAL.

E. F. Condon's child is very ill.

Rev. C. McKelvey and family are expected home next Tuesday evening.

G. H. Taylor went below this morning. He will return to Candelaria by way of Sonora.

Charles P. Corliss, of Sacramento, is here on a visit. He is brother to Joseph Corliss in A. J. Clark's store.

Richmond Smith's health is improving in San Francisco. He sends up word that he is able to eat as big a French dinner as any one.

John Hoy is in from Cressey, Cal., in the San Joaquin valley. He says it was hot there last month. The thermometer got 14 degrees above par one day.

B. F. Whitmer of Verdi, J. H. Blair of Steamboat, Captain J. M. Flannagan, Frank Toft, and F. H. McDonald, manager of the W. U. Telegraph office, came in from Plumas yesterday, well browned and bearded. They caught 900 fish and a ton of grouse.

Wanted to Save His Boots.

A number of Bodie men fitted out a prospector. He made some locations on the side of a trail a few miles away. "Why in thunder didn't you go up on the hills and prospect?" inquired his disgusted patrons. "Do you suppose I want to wear out my boots climbing mountains?" was the cool reply.

REPUBLICAN PLATFORM.

Following is the text of the resolutions adopted by the Republican National Convention on Saturday, June 5, 1880:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent bonds sold at 88, to that where four per cent bonds are eagerly sought at a premium. Under its administration railways have increased from 21,000 miles in 1860 to more than 82,000 miles in 1879. Our foreign trade has increased from $700,000,000 to $1,150,000,000 in the same time, and our exports, which were $20,000,000 less than our imports in 1860, were $264,000,000 more than our imports in 1879. Without resorting to loans it has, since the war closed, defrayed the ordinary expenses of government, besides the accruing interest on the public debt, and disbursed annually more than $30,000,000 for soldiers' pensions. It has paid $880,000,000 of the public debt, and by refunding the balance at lower rates, has reduced the annual interest charge from nearly $151,000,000 to less than $89,000,000. All the industries of the country have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the Republican party asks for the continued confidence and support of the people, and this convention submits for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

ENUMERATION OF PRINCIPLES.

First. We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved. That the peace regained should be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be impeached. That the pensions promised should be paid. That the debt so much reduced should be extinguished by the full payment of every dollar thereof. That the varying industries should be further promoted, and that the commerce already so great should be steadily encouraged.

Second. The Constitution of the United States is the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by national and not by State tribunals.

Third. The work of popular education is one left to the care of the several States, but it is the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation cannot be guided, not by the genius of any one State, but by the average genius of all.

NON-SECTARIAN SCHOOLS.

Fourth. The constitution wisely forbids Congress to make any laws respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism while each State is exposed to its particular domination. We therefore recommend that the constitution be so amended as to lay some prohibition upon the Legislature of each State, and to forbid the appropriation of public funds to the support of sectarian schools.

Fifth. We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be so discriminate as to favor American labor. That no further grant of the public domain should be made to any railroad or other corporation. That slavery having perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American birth must be secured to citizens of American adoption. That it is the duty of Congress to develop and improve our water-courses and harbors, but we insist that further subsidies to private persons or corporations must cease. That the obligation to the man who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final victory. Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people.

THE CHINESE PLANK.

Sixth. Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and the treaty-making powers, that the Republican party, regarding the unrestricted immigration of the Chinese a matter of grave concernment and under the exercise of both these powers would limit and restrict that immigration by the enactment of such just, humane and reasonable laws and treaties as will produce that result.

Seventh. That the purity and patriotism which characterized the earlier career of Rutherford B. Hayes, in peace and war, and which guided the thought of his immediate predecessor to him for a Presidential candidate, have continued to inspire him in his career as chief executive, and that history will accord to his administration the honors which are due to an efficient, just and courageous fulfilment of the public business, and will honor his interposition between the people and proposed partisan laws.

INIQUITIES OF THE DEMOCRACY.

Eighth. We charge upon the Democratic party the habitual sacrifice of justice and patriotism to a supreme and insatiable lust for office and patronage; that to obtain possession of the national and state governments and of the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrage; have devised fraudulent certificates and returns; have labored to unseat lawfully elected members of Congress, to secure at all hazards the vote of the majority of States in the House of Representatives; have endeavored to occupy by force and fraud places of trust given to others by the people of Maine, and resented by the courage and action of Maine's patriotic sons; have by methods vicious in principal and tyrannical in practice, attached partisan legislation to appropriation bills; have wrested the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the war and to overcome its inestimable good results—freedom and individual equality. We affirm it to be the duty and purpose of the Republican party to use all the legitimate means of this Union to secure the perfect harmony which may be practicable, and we submit to the practical, sensible people of the United State to say whether it would not be dangerous to the best interests of our country at this time to surrender the administration of the national government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.

PRESIDENTIAL ELECTORS:

R. H. TAYLOR, : : : : STOREY

O. H. GREY, : : : : WHITE PINE

E. A. MORTON, : : : : ESMERALDA

FOR JUDGE OF THE SUPREME COURT:

WILLIAM H. BEATTY.

FOR CONGRESS:

ROLLIN M. DAGGETT.

Resolutions Adopted by the Republican State Convention:

RESOLVED, That the platform of principles adopted by the National Republican Convention, at Chicago June last, deserves and receives the approval and hearty indorsement of all the Republicans of Nevada.

RESOLVED, That the hordes of Chinese that are coming in upon our shores to eat out our substance are destroying our country, impoverishing our mines, mining and laborers, debauching our youth, and making both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we pledge the entire strength of the Republican party.

In the language of our great leader, we regard the immigration of Asiatics to the United States as little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese Government fail to secure by the first of next January such modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the treaty then be promptly annulled, and such laws enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well-being of the Republic.

RESOLVED, That we most heartily indorse the general financial policy of the Republican party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our national credit to a height never before known, and to the restoration of a national prosperity. But we also demand the complete restoration of silver coin to its former position by the side of gold; and for the purpose of attaining that end we hold it to be the duty of the General Government, through the authorization of Congress, to coin into standard dollars or other legal tender currency, at the cost of coinage, and for the benefit of the producer, the entire silver product of the country, relieving the mining industry from the loss attending the shipment to and sale of silver bullion in foreign markets.

As mining for the precious metals is the leading industry of Nevada, we are inflexibly opposed to the bill reported by the Committee on Mines and Mining, and now before the House of Representatives, prohibiting the following of fissure veins or deposits beyond the vertical lines of surface boundaries; and we urge our Representatives in both Houses of Congress to continue their efforts for its defeat. Such a restriction would work disaster to the labors of the prospector, and seriously retard the development of the mineral riches of the West, and we cordially indorse the action of our Representative, the Hon. R. M. Daggett, in this behalf.

RESOLVED, That the Republican party claims it to be the right and duty of State and Territorial Legislatures to regulate and restrict the charges of railroads exclusively within their respective boundaries, and that it is no less the constitutional right than the positive duty of Congress to regulate the tariffs and restrict the charges of inter-State railroads.

RESOLVED, That while we congratulate the country on the successful resumption of specie payments, and the splendid financial condition of the Republic, we are in favor of restricting the issuance of National and State legal tender notes, to denominations of not less than five dollars, thus creating an increased home demand, as a circulating medium, for the precious metals which our mines are annually yielding.

RESOLVED, That Gen. James A. Garfield and Chester A. Arthur, by their services to the country, by their devotion to principle, and by their unspotted reputation as men and as citizens, are deserving of the united and earnest support of all the loyal people of the United States for President and Vice President thereof. We rejoice in their nomination, and we pledge to them the electoral vote of Nevada at the ensuing election, by an overwhelming majority.
